AYER'S Hair Vigor

that six years ago I lost nearly half of my hair, and what was left turned gray. After using Ayer's Hair Vigor several months, my hair began to grow again, and with the natural color restored.

Ayer's Hair Vigor
PREPARED BY
DR. J. C. AYER & CO., LOWELL, MASS., U. S. A.

Beware of cheap imitations. The name "Ayer" is prominent on the wrapper, and is blown in the glass of each of our bottles.

KILOHANA ART LEAGUE.

FOURTH SEMI-ANNUAL EXHIBITION TO OPEN TO-MORROW.

Hanging Committee Acquit Themselves Well—Some Fine Works in Oil and Water—Decorative Art, Etc.

The Hanging Committee of the Kilohana Art League finished their labors at about five o'clock yesterday afternoon. The work of arranging and hanging the pictures, under the intelligent and careful supervision of D. Howard Hitchcock, has been exceedingly well done. The arrangement of the lights is perfect and a mellow radiance illumines each work of art in the exhibition rooms.

The exhibition will be opened to the public tomorrow, and it is to be hoped that the excellence of the display will give a new impetus to art matters. Honolulu certainly has some local talent whose productions will stand a severe test. It is always a matter of congratulation to find this state of affairs in a community, and it is imperatively a duty of those who love and appreciate the beautiful in art or nature to lend their aid in fostering the growth of feeling in this direction.

Let those who find it possible so to do, set the seal of approval upon the past year's work of our artists in oil, in water colors, in sculpture and decoration in the hundred forms which the masters of every age have taught us to use.

At the present exhibit, pictures and other works of art are shown from the hands of the following list of Honolulu ladies and gentlemen:

Mrs. Wells—two striking and praiseworthy paintings in oil, both of which are entitled to special mention. Miss Grace Robertson has but one picture, a fruit piece, but the most careful and painstaking labor is shown and it should be classed among the best.

Mrs. King exhibits two charming marine views and a pastel. Mrs. Pierre Jones, one of still life; Miss Lishman, two Australian landscapes and some flower pieces.

In water colors, Mrs. Ogilvie, Mrs. Tucker, Mrs. Von Holt, Mrs. E. A. Jones, Mrs. Taylor, Mrs. Dillingham and Mr. Philip Dodge have executed a number of interesting works. Mrs. Dillingham exhibited two frames of Hawaiian fishes, which are very carefully and accurately done.

Augusta Graham has three pocker etchings, two wood carvings and one example of modeling in plaster, the subject being Hawaiian fruit. Miss Noite has done some very dainty work in china painting.

D. Howard Hitchcock has a number of pictures and the chief d'œuvre of the exhibition in a large landscape which was also shown at the initial exhibition of the League in '94. The bronze bust of Kalakaua, by Allan Hutchinson, occupies a central position and will of course form one of the leading attractions.

Both the committee and members in general have exerted themselves to make this exhibition a success. In architecture, in household decoration and in every variety and branch of art there has been, during the past fifteen years a great revival, worldwide in its scope. Honolulu people should feel a direct interest in making a favorable showing in this respect, and one of the best ways to enthuse the public in general and create a sym-

pathy for beauty and artistic creation, is to foster such enterprises as the Kilohana Art League.

BEHRRING SEA CLAIMS.

Salisbury Fully Approves of Paunceforte's Arguments.

LONDON, November 13.—The correspondence of the British Government with Sir Julian Paunceforte, British Ambassador to the United States, upon the question of the Behring sea compensation from May, 1894, to August, 1895, was issued tonight. In the last letter, dated August 13th, Lord Salisbury, the Prime Minister, closed a lengthy memorandum setting out at greater length some of the points supporting the British claim.

He writes Paunceforte: "The arguments you advance to support our claims have the entire approval and concurrence of the Government. The attempt made by Senator John T. Morgan of Alabama, chairman of the Senate Committee on Foreign Relations, to dispute them seems largely founded on misapprehension, and the Government cannot doubt, when the facts are placed before the public of the United States, the liability of the United States to make compensation, which has never been denied by the Government, will generally be recognized, both in and outside of Congress."

DEEL ON THE HUDSON.

Both of the Principals Received Wounds.

NEW YORK, November 12.—Warren Ratcliff McVeigh and Paul Tupper Wilkes fought a duel with revolvers at short distance on the Palisades at Fort Lee early this morning. They were seconded by Robert Ratcliff Owens and Frank Butler. Both men were wounded. The four young men engaged in the affair of honor are well known locally, while three of them enjoy reputations that might almost be called national. Mr. McVeigh is a newspaper man, a writer of short stories and a leading member of Southern society. Mr. Wilkes is famous throughout the West as the slayer of George Shepard, one of the leaders of the Riel rebellion.

No one except the principals themselves knew the cause of the duel. The ostensible one was a quarrel resulting from an argument that arose between McVeigh and Wilkes while the four gentlemen were dining together at the Astor House on Monday evening. During the quarrel, that went on so quietly that not even the diners at adjoining tables knew about it, Mr. McVeigh notified Mr. Wilkes that he would send a friend to wait upon him with a challenge to mortal combat.

The men met this morning at the Palisades, and five shots were exchanged. McVeigh's left hand was wounded at the third exchange, and Wilkes was slightly wounded at the fourth. The men then shook hands and declared that their honor was satisfied.

The Gold Reserve.

WASHINGTON, Nov. 13.—Today's statement of the condition of the treasury shows: Available cash balance, \$177,874,318; gold reserve, \$91,779,487.

At Thomas Square.

The Hawaiian band will give a concert at Thomas Square this afternoon at 4 o'clock, with the following program:

1. March—"Paloa".....Berger
 2. Overture—"Zampa".....Herald

 4. Waltz—"Vienna Bonbon".....Strauss
 5. Dance—"Aborigine".....Thiers
 6. Ballad—"Don't be Cross".....Roller
 7. March—"National Guard of Hawaii".....Berger
- "Hawaii Pono."

LATEST FOREIGN NEWS.

THE MARIPOSA WITH DISPATCHES TO THE EDITOR.

Progress of the Cuban Rebellion—Affairs in Turkey—News Items From the Outside World.

The following interesting budget of news was received by the steamship Mariposa, which brought telegraphic dates to the 14th:

TURKEY.

The Turkish Minister of Foreign Affairs, Tewfik Pasha, replied yesterday to the notes of the diplomatic representatives of Great Britain, Russia and France, assuring them, as he had previously assured the Embassadors of Germany, Austria and Italy, that the Turkish Government's statement of what measures it intends to take for the suppression of disorders in Asia Minor will be presented to the Embassadors "without delay."

There is a complication that may give the Sultan a further excuse for inaction, which is that the new Ministry is already tottering, and another change may take place. Fresh disturbances are reported from Malatiah, where a number of persons have been killed, including four priests of the Society of Jesus, under French protection.

The French Embassador, M. Cambon, is preparing a strong representation on this subject to the Porte. A squadron of five French war ships has sailed from Pierus for Turkish waters, and it is stated that the allied fleet will rendezvous with the British fleet within a few days.

There has been serious trouble at Caserta, not far from Jerusalem, but no details of the rioting there have yet reached the city. A panic prevails at Moosh, owing to the Kurdish movement. All who can do so are fleeing from the city and its neighborhood. Many people are reported robbed and murdered while fleeing. The Kurds are said to be in arms throughout the district. Troops, it is claimed by the authorities, are being hurried to the spot.

Replying to inquiry of United States Embassador Terrell as to the safety of American missionaries, Commissioner Darnham telegraphed from Harput that the missionaries are alive, but are in extreme danger. Terrell has informed Tewfik Pasha that the Government will be held responsible for the safety of Americans. The Turkish Minister for Foreign Affairs has assured Terrell that everything possible will be done for their protection.

A serious state of affairs prevails at Zeitoun, where the Armenians lately captured a battalion of Turkish troops and occupied the barracks and strategic points. The Government is striving to induce the Armenians to lay down their arms, promising them they will not be molested if they return to their homes.

The distribution of revolutionary literature throughout Asia Minor is being carried on extensively in spite of the precautions taken by the Turkish Governors, and not a day passes without incendiary placards being torn down by the police here and in all the big cities. There seems to be no doubt that the spirit of revolution is spreading, even among the old Turks, and the young Turkish party is said to be ripe for a revolt.

A dispatch to a German paper says the Russian Embassador at Constantinople declares that Russia will not accept the mandate of the powers to pacify Armenia.

A witness of the Erzerum massacre confirms the statement that the outrages were pre-arranged. A bugle was sounded throughout the city before the soldiers

began their murderous work. At first the troops refrained from attacking women and children, but these bounds were soon passed. Bodies were frightfully mutilated. Women died in defense of their honor. There were 521 bodies buried in one day.

Disquieting rumors regarding the security of the Christian teachers in Turkey are floating about the State Department in Washington. Admiral Selfridge has relieved Admiral Kirkland at Marseilles as commander of the European station. He has hoisted his flag on the San Francisco, which will join the Marblehead in Turkish waters. With these two vessels present, together with the warship given the Porte by Minister Terrell, it is felt the United States Government will have done all possible to protect the Americans in the interior of Turkey.

CUBA.

HAVANA, November 12.—Strict reserve has been observed in regard to the movements of the Spanish columns since Sunday, but it is officially reported that the Government forces under General Aldave have repulsed Maceo's insurgent division. The repulse took place at the point to which Maceo had advanced, between Moran and Ciego de Avila, in the Province of Puerto Principe. There, it is reported, Maceo attempted to cross the military railroad and was immediately attacked.

The reserve observed in military circles is regarded as indicating that Captain-General Campos has inaugurated military operations which he intends shall ultimately serve as a trap to catch the concentrated rebel forces in Las Villas and compel Gomez and his Generals, Roloff and Sanchez, to meet the Spanish forces in a decisive engagement. News of importance confirming this view of the situation is expected to reach here at any moment.

Advices from Madrid received today say that Senor Romero, Minister of Justice, in order to prevent a protracted Cabinet crisis, has finally joined Canovas Castillo and his adherents in their approval of Campos' proposition to put into effect immediately in Cuba the administrative reforms sanctioned by the last Spanish Cortes. Senor Romero stated that, recognizing Campos' prestige, he had no objections to offer in regard to the latter's military policy.

Santiago advices report that a Spanish column under Colonel Sandoval fought the rebel brigades of Vaquez and Cabrera at San Jorge and Manacuas, and captured their camps and colors. In a skirmish near Cardenas yesterday the Government troops captured another rebel flag. In an engagement at Lomodelos Chinos, near Guines, the rebel chief, Manuel Garcia, was killed. The Government forces captured the camps and hospitals and took many prisoners.

KEY WEST (Fla.), November 12.—The Spaniards have arrested Ernest Brooks, a British subject, and manager of the Soledad sugar plantation; Messrs. Lacot and Huguet, French citizens, and several Americans engaged in business in Guantanamo. The British, French and American vice-consuls demanded the release of the prisoners, but the Spaniards refused. Spanish authorities assert that the men arrested have paid tribute to the insurgent chief, Maceo, and have also smuggled arms.

NEW YORK, Nov. 13.—A dispatch from the World's correspondent in Havana says: Dispatches from Spain announce that the discordant elements in the Spanish Cabinet have been reconciled and that Romero y Robledo, Minister of Justice, who has bitterly opposed the policy of Martinez de Campos, will henceforth support him. It is stated that Senor Canovas assumed the position that if the annexation

(Continued on 4th page.)

HAWAII TO BE ANNEXED.

PROVIDING THE PEOPLE OF THE ISLANDS SAY SO.

Resolution to Be Introduced in Congress—President Cleveland Will Assent if Question Is Put to a Popular Vote.

CHICAGO, Ill., Nov. 14.—A special to-morrow paper from Washington says:

Hawaii may, after all, become a part of the United States, and that within the coming year. Information of a trustworthy nature has been secured concerning the Hawaiian programme to be adopted by the friends of annexation during the coming winter.

The joint resolution will be introduced either in the House or Senate requesting the President to negotiate the treaty of annexation with the Government of Hawaii. This resolution will have the sanction of the President of the Hawaiian Government and of the new Hawaiian Minister to this Government, Mr. Hatch, who today arrived in San Francisco en route to Washington. Still more important, it will have the approval of President Cleveland.

The resolution as introduced or amended will provide that, if the President concurs and the Government of Hawaii is willing, the scheme of annexation shall include a submission of the question of joining the American Union to the voters of the islands. In this form President Cleveland will agree to the resolution, and willingly undertake the work of negotiating a treaty. No doubt is felt by Hawaiians of influence and extended information that their Government will be glad to negotiate such a treaty, and that when the question is submitted to the suffrage of the Hawaiian people it will be carried by a large majority.

BIG ELECTRICAL SUIT.

The Brush and Western Companies Claiming a Patent.

CHICAGO, November 5.—One of the most important electrical suits ever tried in the country will come up for final hearing before the United States Court of Appeals during the present session, probably being reached Wednesday or Thursday. The suit is between the Brush Electric Light Company of Cleveland and the Western Electric Manufacturing Company of this city, and it involves the double carbon lamp.

The Brush Company claims the patent monopoly upon the carbon arc lamp of familiar use. The patent has only one year to run, but the value placed upon it is evinced in the present suit, the evidence in which is said to have cost the Brush Company \$150,000 to prepare. The latter company's claims to the exclusive manufacturing right to the lamp, it appears, have not been admitted by numerous electrical manufacturing companies, about twenty of which the Brush Company has sued for infringement. Its suit against the Western Electric was, by common consent, made the test of the whole question.

The suit was tried in May before Judge Showalter, and decision rendered in favor of the Western Electric. The Brush Company took an appeal, and this will be heard. In the present case \$150,000 is involved, but the payment of large amounts by other companies in accounting is dependent upon it if the judgment of the lower court be reversed. The sum total of these aggregates \$2,000,000.
